

# PowerTeacher **PRO**

## Six Steps to Success

*Top Tips for Success in  
Adopting PowerTeacher Pro*

### **INVOLVE TEACHERS EARLY!**

The greatest factor to ensure a successful transition is to engage teachers several months in advance, advising them of status, new features, and benefits.

★ *Solicit feedback to engage teachers and gain their support in the new endeavor*

### **LEARN FROM HISTORY, LOOK TO THE FUTURE**

PowerTeacher Pro is the next generation in classroom management tools. Much of what teachers have come to rely on in PowerTeacher Gradebook is included in PowerTeacher Pro, with significant improvements.

★ *Features perform better, faster, and provide a more streamlined workflow*

★ *PowerTeacher Pro has been developed from PowerTeacher Gradebook and the top requests from teachers to best meet needs and expectations*

## HIGHLIGHT BENEFITS

The greatest factor to ensure a successful transition is to engage teachers several months in advance, advising them of status, new features, and benefits.

★ *Solicit feedback to engage teachers and gain their support in the new endeavor*

## TRAIN TO WIN!

Preparation and training are inherent to the success of any endeavor. The more prepared your teachers are, the better their experience will be, so make training and help readily available and easy to obtain.

★ *Provide access to key resources, including online help, district materials, PowerSchool's self-paced online training, and a quick reference card with key data*

## BUILD A TEAM OF PROS

Recruiting a team of super users in each school serves as a support network that reduces anxiety and lends a measure of comfort to teachers learning the new system. On-site advocates reduce the time required for teachers to get help, further reducing anxiety.

★ *Provide specialized in-depth training and a pilot period for each advocate group, to equip them to assist their peers with PTP as needed*

## TAKE IT FOR A TEST DRIVE

Designate an initial reporting period for your advocate team to use and learn the solution ahead of the rest of their school.

★ *Super users, having used the new solution in a practical setting will be able to better assist their peers when they adopt the solution.*
