

Follett Destiny

Homeroom field:

This field is used to track students to a specific class or teacher, for the purpose of printing over due notices and tracking textbooks. There are a couple districts that are using this field to track Destiny as well as Meal Magic.

The use of this field was an agreement between your District Liaison and Follett to be the field used for tracking the information needed.

If your District is using this field for both **Destiny** and **Meal Magic** make sure the data input in this field will accommodate both programs.

Where you will find the field in **PowerSchool**:

- Log into **PowerSchool**
- Open a students record
- Go to **Modify Info / Home Room** field – this is where the information should be filled in.
